

FLEXIBLE LED SEWING LIGHTS

mod. LED-FLEXI-9

Battery-operated Flexible LED sewing light - 9 ultra-bright LEDs in each strip. Peel and stick backing. Super-slim, discreet design. No tools, no wiring, no outlets. Easily contours around curves and angles. Uses 3 of "AAA" batteries not included.

Peel off the adhesive backing strip and stick firmly against any clean and smooth surface under the sewing arm. Click the switch button to illuminate the strip and click again to turn off when not in use. You can stick the battery case where accessible as picture shown.

Magnetic LED SEWING LIGHTS

Magnetic mounted to fit underneath the casting of all industrial sewing machines. Links to motor switch box. No heating or radiation.

mod. TD-6 Single strip

mod. TD-6D Double strips

mod. TD-6U U-shape
